Brainercise Riddle

What has roads but no cars, rivers but no water and hills but no trees?

Who Am I?

Math - M

Fun Bible Facts

Sea of Galilee

The Sea of Galilee is relatively shallow, just 200 feet at its greatest depth. A shallow lake is "whipped up" by wind more rapidly than deep water, where energy is more readily absorbed.

A storm on the Sea of Galilee is described in Mark 4:37:

A furious squall came up, and the waves broke over the boat, so that it was nearly swamped.

Luke 8 describes the wind and raging waves during this storm. Matthew calls it a furious storm without warning.

The large difference in height between surrounding land and the sea causes large temperature and pressure changes. This results in strong winds dropping to the sea, funneling through the hills.
